

HOW IT WORKS

Landline System: When the call button is pressed, an alarm signal is sent to the control panel in your home, which automatically calls our monitoring center. The dispatcher will follow your predetermined instructions and

Choose to wear as a pendant... within minutes a family

member, friend, neighbor, or 911 emergency responder can be on their way to you.

GPS System: When the device is pressed, you will be connected with a live operator who will ask if you need help. If you require assistance, a family member, friend, neighbor, or 911 emergency responder can be on their way to you within minutes. Fall detection can optionally be enabled as well.

...Or wear your call button around your wrist

EXPAND YOUR SAFETY NET

You can also purchase additional sensors to monitor your home for fire, furnace failure, carbon monoxide, or water leaks with *absolutely no additional* monitoring fees.

PRICING OPTIONS

■ Leasing a Landline System:

Setup control panel and call button using existing phone jack

<u>One-time Fee</u>	<u>Monthly Fee</u>
\$50*	\$21.95*

■ Leasing a Cellular System:

For homes without a landline phone

<u>One-time Fee</u>	<u>Monthly Fee</u>
\$100	\$45

■ Leasing a Mobile GPS System

Does not require a landline phone, has no range restriction

<u>One-time Fee</u>	<u>Monthly Fee</u>
\$100	\$45

Great Plains Security is a qualified service provider of medical safety systems through social services in some areas. You can call your local social services representative to find out if you qualify for payment assistance.

**Add sales tax where applicable.*

Additional phones and equipment that share the same phone line can interfere with the control panel's ability to send an emergency call. Ask us for details on installation of a phone override jack. Additional installation charges may apply.

WHO IS IT FOR?

Medical Safety Monitoring is Ideal for:

- Seniors who live alone or are alone at times.
- People with medical conditions.
- People with difficulty walking – in danger of falling.
- Anyone who might need help in an emergency.

INFORMATION

Great Plains Security also offers: installation and monitoring of security systems for home or business and installation of video surveillance systems (CCTV).

1-701-222-8817 or visit www.gpsnd.com

Simple 3-Step Connection

The Great Plains Security Medical alert system gives you peace of mind knowing that you're *connected if you ever need help*. Now you can maintain your safety, health and independence.

The freedom to *live independently* is important to people who deal with physical and medical challenges or who simply live alone. Now, they can maintain their independence and still receive help when they need it – *with the press of a button*. Living independently doesn't have to mean taking a risk!

FEATURES

- Peace of mind 24 hours a day, 365 days a year.
- Our water-resistant call button works in the bath or shower.
- Easily connects to a phone jack near an electric outlet. Cellular units only need an electrical outlet.
- The control panel has a battery backup, which is automatically recharged, so you're protected in case of power failure.
- A Great Plains Security Operator will either call you on the phone (for LandLine systems) or speak to you directly through your device (for GPS systems). If you do not answer, we will contact your call list and emergency dispatch.
- Our systems are affordable and do not require a long-term commitment.
